

# COTN GLOBAL EVENT - 2019

Dear COTN Leader,

Attached to this letter is a very exciting announcement evolving from our recent Apostolic Council meeting in Durban.

As we discussed, reflected and contemplated we came to realize that we are truly in a season of transition as a family in COTN. As such it was decided to call the younger generation from around the world to an international event which will be prophetic in nature, in that it will take place in the form of an equipping - celebratory event over three days culminating on the Sunday where the new generation will be part of a prophetic act of commissioning by the fathers over them.

We are calling everyone in the COTN family between the ages of 18-40 where at all possible, to be there. The event will not be strictly limited to this age group but all plenary sessions, workshops, music, breakouts will be focused towards them.

As you are aware the instances where the Apostolic Council initiate international events are very few and far between. So this promises to be a significant landmark event in the history of COTN as a family, as such we ask you to place this information in the hands of everyone between ages 18-40 and encourage them to be there.

Every Blessing

David Cape  
On behalf of the COTN Apostolic Council
